—but she can't live on a mere pedestal

American men have long enjoyed the reputation of being devoted husbands. But any wife, and especially a mother of growing children, needs more substantial support than a pedestal of adoration.

Some men lavish everything upon their families by living right up to the limit of current income, making relatively little provision for the future.

A more practical devotion combines the right amount of spending in the present with security for the future.

The Equitable offers an ideal plan under which both objectives can be accomplished—and for comparatively small outlay.

Write for information about this easy way to make sure that *your* wife will not have to battle the world single-handed.

Equitable agents are professionally trained to work out life insurance and annuity plans to fit the specific needs of the individual. That is what is meant by the Equitable Case Method.

Let an Equitable agent study your needs and recommend a definite plan.
